

# Sheep Nuts

**Sheep Nuts** are formulated to be fed to sheep to maintain body weight and condition in situations where forage quality and/or quantity is limiting.

## ANALYSIS

	As Fed	DM @ 89 %
Metabolisable Energy (min)	10.2 MJ/kg	11.5 MJ/kg
Total Protein (min)	13.0 %	14.6 %
Urea (max)	Nil	Nil
Fibre (max)	12.0 %	13.5 %
Salt (max added)	1.0 %	1.1 %
Acid Buf (rumen buffer)	1.0 %	1.1 %

## FEEDING RECOMMENDATIONS

The feeding rate of **Sheep Nuts** will vary depending on a number of factors such as body weight and condition, activity, pregnancy, lactation and quality of the roughage being fed.

Generally **Sheep Nuts** would be fed between 0.5% and 2% of body weight per day along with *ad lib.* roughage.

Introduce **Sheep Nuts** gradually and avoid sudden changes to diet as digestive problems may occur. If digestive problems occur reduce the amount of nuts being fed and increase roughage consumption until normal digestive activity resumes.

**Sheep Nuts** can be fed to cattle.

Roughage and clean, fresh water must be available at all times.

## WARNINGS

**This feed has been manufactured specifically for animals as described, do not feed to any other species of animal.**

**Avoid sudden changes to the diet to prevent digestive problems.**

**THIS PRODUCT DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL**

**Store in a cool, dry place away from direct sunlight.**
